Mukarama Khalil

Graphic Designer, Illustrator & Animator

mukarama_kl@hotmail.com | +92 302 6227652

Professional Summary

Bold, creative graphic designer, illustrator and animator with 4 years of experience across branding, motion graphics, and digital content, including international experience supporting communications for UN Women in Nepal. I turn ideas into polished visual and animated work that makes brands impossible to ignore across print, digital, and social platforms.

Experience

Graphic Designer, MK

4 years

- Designed logos, branding assets, and marketing materials for a range of clients and projects.
- Produced motion graphics and 2D/character animations for digital and social media content.
- Handled digital design and layout work, including web design and web development support.
- Created and edited content using Canva and CapCut for consistent, on-brand delivery.

Graphic Design Intern, UN Women, Nepal

6 months

- Supported the design of visual materials for communications and outreach campaigns.
- Assisted with layout and digital design for reports, presentations, and social media content.
- Collaborated with program teams in an international, multicultural office environment.

What I Do Best

Graphic design and branding. I build brand identities from the ground up: logos, colour systems, marketing materials and print-ready layouts, made to be recognised instantly and look flawless everywhere.

Illustration and character design. Original illustrations and characters with real personality, the kind people remember and come back for.

Animation and motion graphics. 2D and character animation that turns a static idea into something people stop and watch, from social clips to brand animations.

Web design and development. Clean, modern layouts and front-end support so your website looks as good as your brand.

Content creation. Fast, consistent, on-brand content built in Canva and CapCut.

Technical and product design. Precise, practical design thinking that is ready to produce and ready to sell.

Proofreading and attention to detail. I catch what others miss: every design leaves my desk with clean, error-free copy.

Toolkit: Graphic Design, Logo Design, Technical Design, Motion Graphics, Digital Design and Layout, Web Design, Web Development, Product Design, Animation, Character Animation, 2D Animation, Illustration, Proofreading, Content Creation, Canva, CapCut
